

Integrated Financial and Other Capital / Assets

That increase the total value of the company balance sheet which invites interest of investors and financial institutions

- Financial Assets including infrastructure investments
- Natural Assets underpin and safeguard financial assets, e.g., land and water
- Social Assets ~ relational values that build essential trust among stakeholders (mutual understanding and respect)
- Human Assets ~ corporate and community individuals
- Knowledge Assets ~ codified and tacit local knowledge (kearifan lokal)

Financial Assets including infrastructure investments

- conforming to international standards
- based upon sustainable sources of revenue
- efficiently mobilized

Natural Assets underpin and safeguard financial assets - Land & Water

- Land acquired through free, prior and informed consent (FPIC)
- Small land footprint
- Small carbon footprint; reducing carbon emissions elsewhere
- Safeguarding large upper catchment areas as year-round sources of sufficient water supplies
- Recycling upstream waste, reducing downstream waste load

Social Assets ~ relational values that build essential trust among stakeholders (mutual understanding and respect)

- Grievance Mechanism ~ inclusive and transparent
- CSR ~ community-based productive enterprises

Human Assets ~ corporate and community individuals

- Staff training
- **Community training**

Knowledge Assets ~ codified and tacit local knowledge (kearifan lokal)

- Building on local knowledge for soil conservation
- Adding to local tree planting with improved varieties
